FINAL DETERMINATION

PERMITTEE

Aveva Drug Delivery Systems, Inc.
3250 Commerce Parkway
Miramar, Florida 33025

PERMITTING AUTHORITY

Environmental Engineering and Permitting Division (EEPD)
1 North University Drive, Mailbox 201, Plantation, Florida 33324

PROJECT

Air Permit No. 0112384-008-AC
Minor Air Construction Permit

The purpose of the project is to obtain a construction permit to add an Ecopure US04-66272.11, 3.6 MMBtu/hr natural gas-fired regenerative thermal oxidizer (RTO) or equivalent to control volatile organic compounds (VOC) and hazardous air pollutants (HAP) emissions, primarily at two coater drying lines (CDLs), (EU 001 and EU 002) used for research, development and production. EU 001 and EU 002 do not currently have any air pollution control device. The new RTO will also be able to control air emissions from CDLs EU 003 and EU004, used for production only, if the existing 2.5 MMBtu/hr natural gas-fired RTO is down for maintenance. Both new and existing RTOs have a 95 percent VOC destruction efficiency prior to discharge into the ambient air.

NOTICE AND PUBLICATION

The EEPD distributed a draft minor air construction permit package on October 11, 2017. The applicant published the Public Notice in the Sun-Sentinel Newspaper on December 13, 2017. The EEPD received the notarized hard copy of the proof of publication on December 13, 2017.

COMMENTS

Minor comments on the Draft Permit were received from the applicant. Details of the comments are attached to this document.

CONCLUSION

The final action of the EEPD is to issue the permit with the minor changes, corrections and clarifications as described attached.
