Ed,

Please find the attached amended facility attachments for the South Dade Landfill. Attachment 7 is the requested changes to the Title V Permit that was meant to be uploaded with the initial submission. Attachment 8 is the RICE information and rule applicability amended to show the Cummins emergency generator at the Incinerator building as 40 CFR 63 Subpart ZZZZ applicable as an existing RICE at an area source of HAPS. These amended attachments are meant to replace corresponding ones that were uploaded with the initial submittal on Friday, January 10, 2014.

Please confirm that this email and the included attachments satisfy your requests based on our telephone conversation earlier today, and will be included as part of the original Title V permit application submittal. Thanks again.

Regards,

M. Roger Hogg, P.E.
