Subject: FPL Fort Myers Peaker Project AC/PSD Permit Application

Jeff/David: As previously discussed, please find attached an Air Construction/PSD Permit Application for the FPL Fort Myers Combustion Turbine (CT) Peaker Project (FDEP Facility ID 0710002). This project was previously submitted and consisted of three CTs (FDEP Project No. 0710002-019-AC; PSD-FL-424). This application was withdrawn. The current project will consist of two General Electric (GE) 7F.05 CTs. The attached application considers all applicable PSD air pollutants including greenhouse gases (GHG).

The original signature pages of the application form and the PSD permit application fee of $7,500 will be set separately. Please let us know if there are any technical questions as the review proceeds.

Regards, Ken
