Subject: MODIFICATION APPLICATION NO. 0710133-016-AV, GULF COAST SANITARY LANDFILL

Dear Applicant:

Our office has received the air pollution permit application that you submitted for the project described below:

Facility Owner/Company Name: WASTE MANAGEMENT INC. OF FLORIDA
Site Name: GULF COAST SANITARY LANDFILL
Project Name: AB305- TV REVISION
Project Description: This application is a revision to the Title V Operating Permit (0710133-015-AV) to address removal of the operating and reporting requirements of 40 CFR Part 60, Subpart WWW and 40 CFR Part 63, Subpart AAAA for the gas collection and control system (GCCS) at the Gulf Coast Sanitary Landfill. On December 6, 2013, a summary report for the non-methane organic compound (NMOC) sampling was submitted to FDEP, which documented the site-wide NMOC concentration less than 50 megagrams (Mg) per year for three consecutive events per ?60.754(b). Since the NMOC concentrations are below 50 Mg/year and the conditions of ?60.752(b)(2)(v) have been met, the GCCS will no longer be required to meet the operational and record keeping/reporting standards identified in 40 CFR Part 60, Subpart WWW and 40 CFR Part 63, Subpart AAA on the 15 year anniversary of the site?s initial performance test, which is June 2014. WMIF requests that this permit be issued on July 1, 2014.
