Thank you for your review. Yes, please issue the case-by case permitting exemption to document this is not considered a modification under NSPS or NSR.

Heidi,

A case-by-case permitting exemption from an air construction (AC) permit for the "pre-startup procedures and natural gas fuel supply piping systems" could be a safe approach to handling your request. This way you would be exempt from having to get an AC permit and receive the authorization at the same time.

Would you prefer for us to process your request this way?

Scott

Dear Applicant:

Thank you for your air pollution permit application for the referenced project. We encourage direct communication with our permit processor to answer any questions that may come up during the review process. You may be contacted by our processor by e-mail or by phone. Our goal is to reduce the number of formal requests for additional information (RAIs), as well as the overall time to process your application. We appreciate your efforts to assist us by ensuring that your response to any questions or RAIs is timely, thorough and complete.
