Joe,

I apologize for the delayed reply to your voicemail from yesterday. I have been waiting for plant folks (usually very busy) to reply to my request for clarification on the electric heaters. From my understanding, the four (4) electric heaters are used, when needed, to heat up the natural gas fuel prior to introduction into the CT.

Please let me know if you require any more additional information for the Facility Description of the Title V renewal.

Thank you,

Jeff
