Permit Project No.: 0310485-016-AV
Brandy Branch Generating Station
Duval County

Enclosed is the FINAL Title V Air Operation Permit Revision, No. 0310485-016-AV. The subject of the Title V Air Operation Permit Revision is to incorporate the terms and conditions of air construction permit, No. 0310485-017-AC/PSD-FL-310(F), which authorized an increase in the heat input rate to the Heat Recovery Steam Generator's (HRSG's) supplementary-fired (natural gas) duct burner from 170 to 200 MMBtu/hr for each combined-cycle combustion turbine-electrical generator, EU-002 and EU-003. No physical change is required to achieve this heat input rate increase. The change reflects the installed capacity of each HRSG's duct burner. Also, each HRSG's duct burner will have a restriction on the hours of operation of 4,500 hours per consecutive 12-months to keep the pollutant emissions to less than significant and to avoid PSD new source review. This permit revision is issued pursuant to Chapter 403, Florida Statutes (F.S.). There were no comments received from Region 4, U.S. EPA, regarding the PROPOSED Permit.

Any party to this order has the right to seek judicial review of the permit pursuant to Section 120.68, F.S., by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Legal Office; and, by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 (thirty) days from the date this Notice is filed with the Clerk of the Department.

Executed in Tallahassee, Florida.
