Title V Air Operation Permit Renewal
PROPOSED Permit Project No.: 0750082-010-AV

This Title V Air Operation Permit Renewal is issued under the provisions of Chapter 403, Florida Statutes (F.S.), and Florida Administrative Code (F.A.C.) Chapters 62-4, 62-210 and 62-213. The above named permittee is hereby authorized to operate the facility shown on the application and approved drawing(s), plans, and other documents, attached hereto or on file with the permitting authority, in accordance with the terms and conditions of this permit.

The subject of this permit is for the Renewal Title V Air Operation Permit 0750082-007-AV, issued on June 19, 2002 and to remove the styrene emissions limit from the permit (Specific Condition A.10.). In accordance with Specific Condition No. A.9. of the same permit, the Total VOC and all HAP emissions shall not exceed 228 TPY. All other conditions of Title V Permit No. 0750082-007-AV shall remain the same.

This facility consists of a Fiberglass boat operation, which generates emissions from laying up fiberglass, woodworking, and materials storage and handling. Emission Points are identified as follows: EP1 – gelcoat booth stack, EP2 and EP3 - two (2) small parts grinding booth stacks, and EP4 – woodworking area dust collector stack and EP5 – parts cutting and grinding area cyclone stack. There are numerous horizontal building exhaust fans in the plant. The facility has two lamination buildings.

CAM **does not** apply.

Also included in this permit are miscellaneous insignificant emissions units and/or activities.

Based on the Title V Air Operation Permit Renewal application received July 29, 2005, this facility is a major source of hazardous air pollutants (HAPs).
