Dear Mr. McRae:

This is in response to the letter dated February 28, 1997 from your consultant K.C. Sviglin of Pensacola P.O.C. to amend the construction permit for your kiln. This is done due to the fact that there is no allowable emissions limiting standard for VOC from wood drying kilns.

By this letter, air construction permit 0770007-001-AC for your wood drying kiln, shall be amended by changing Specific Condition 5, removing the VOC maximum allowable limit from the permit.

Specific Condition 5, From:
