Compressor Station No. 12  
Title V Air Operation Permit Renewal

Dear Mr. Shellhouse:

Enclosed is the draft permit package to renew the Title V air operation permit for Compressor Station No. 12. This facility is located in Santa Rosa County at 13100 Munson Highway, Milton, Florida. The permit package includes the following documents:

- The Statement of Basis, which summarizes the facility, the equipment, and the primary rule applicability, and the changes since the last Title V renewal.
- The draft Title V air operation permit renewal, which includes the specific permit conditions that regulate the emissions units covered by the proposed project.
- The Written Notice of Intent to Issue Air Permit provides important information regarding: the Permitting Authority's intent to issue an air permit for the proposed project; the requirements for publishing a Public Notice of the Permitting Authority's intent to issue an air permit; the procedures for submitting comments on the draft permit; the process for filing a petition for an administrative hearing; and the availability of mediation.
- The Public Notice of Intent to Issue Air Permit is the actual notice that you must have published in the legal advertisement section of a newspaper of general circulation in the area affected by this project. The Public Notice of Intent to Issue Air Permit must be published as soon as possible and the proof of publication must be provided to the Department within seven days of the date of publication. Proof of publication may be submitted electronically to [nwdair@dep.state.fl.us](mailto:nwdair@dep.state.fl.us).

If you have any questions, please contact the Project Engineer, Howard Ard, by telephone at 850.595.0622 or by e-mail to [howard.ard@dep.state.fl.us](mailto:howard.ard@dep.state.fl.us).

Section 7661d(b)(1), to object to the issuance of any Title V air operation permit. Any petition shall be based only on objections to the Permit that were raised with reasonable specificity during the 30-day public comment period provided in the Public Notice, unless the petitioner demonstrates to the Administrator of the EPA that it was impracticable to raise such objections within the comment period or unless the grounds for such objection arose after the comment period.
