INSPECTION COMMENTS/RECOMMENDATIONS:			
<p>On December 16, 2008, Mr. Rodell Rice of FDEP visited the subject facility to perform a Level 2 compliance inspection. Contact was made with Mr. Thomas Clark, the operations manager. Mr. Clark stated that the facility did not operate in 2008. Mr. Clark explained that the facility has not been in operation since April 2004. He stated that the citrus fruit industry is down. A walkthrough inspection of the facility was not conducted because no equipment was in operation. Mr. Clark said that facility was for sale. He further stated they have a potential buyer and were in the process of closing on the deal. Mr. Rice asked Mr. Clark to notify the department when the sale was final. Mr. Clark agreed to follow-up on the sale.</p> <p><u>Facility-wide Conditions</u> No objectionable odors were detected on or off facility grounds. No emissions points were in operation. Method 9 observations were not conducted. No areas were observed where precautions were not taken to minimize VOC or OS emissions. No areas were observed where reasonable precautions were not taken to prevent the release of unconfined particulate.</p> <p><u>Emissions Units and Conditions (February 2008 – December 2008)</u> The facility has not processed any fruit. The three steam boilers may have operated periodically, but not to the extent that any emissions or fuel use limits were exceeded.</p>
