RE: Monthly Inventory Emissions Report
December 2011

Dear Danny:

Attached is the Inventory Emissions Report as required by Permit #0810030-011-AF. It contains calculated emissions using Eaton's Inventory Tracking System and our *MS-Access* emission database.

Based on my review, the data show compliance with all permit conditions.

I am attaching, with the report, the Database Printouts for the twelve (12) month period from January 2011 through December 2011.

Please let me know if you have any questions.

Sincerely,

BAKER ENVIRONMENTAL ENGINEERING, INC.

A handwritten signature in black ink that reads "Bob".

Robert A. Baker, P. E.
