Subject: RE: Greetings from Pierce Manufacturing

Sure, as per my report for 1/1/2009 thru 12/31/2009:

Toluene - 186 Lbs emitted HAP

Xylene - 3,221 Lbs emitted HAP

Xylene is the highest item on the list.

RE: Greetings from Pierce
Manufacturing

Good Morning Chris, thanks for the email. I forgot to ask you about the individual HAPs emissions for Toluene and Xylenes. I forgot to write them down when you showed them to me. Can you send those to me when you get a chance? I will email you a copy of my report as soon as I am done with it.

Also thanks for the powder coating information.

Malik Pickering
