Mr. Douglas,

Please find attached a Field Warning Notice that is being issued for construction without permit.

Rule 62-210.300(1)(a), F.A.C. states the following:

Unless exempt from permitting pursuant to paragraph 62-210.300(3)(a) or (b), F.A.C., or Rule 62-4.040, F.A.C., an air construction permit shall be obtained by the owner or operator of any proposed new, reconstructed, or modified facility or emissions unit, or any new pollution control equipment prior to the beginning of construction, reconstruction pursuant to 40 CFR 60.15 or 63.2, or modification of the facility or emissions unit or addition of the air pollution control equipment;

Specific Condition 5. of your current operation permit 0830084-009-AO states the following:

Modification - Unless otherwise exempt by rule, the permittee shall not initiate any construction, reconstruction, or modification at the facility and shall not install/modify any pollution control device at the facility without obtaining prior authorization from the Department. Modification is defined as: Any physical change or changes in the method of operations or addition to a facility that would result in an increase in the actual emissions of any air pollutant subject to air regulations, including any not previously emitted, from any emission unit or facility.

Please submit a construction permit application for the new dust collector as soon as possible. Also, please schedule (with a proper notification to the Department) a visible emission test to be conducted on the new unit.

I am also attaching a list of consultants who you can contact for both preparing your construction permit application and conducting a visible emission test.

If you have any questions, please feel free to contact me.

Thanks,

Nedin Bahtic

Subject: Collection System Specs

Hello Mr. Bahtic,

It was a pleasure to meet you today.

As promised, attached please find the specs for the new collector system we are upgrading to as a part of our continuous improvement efforts. Please advise if any additional information or actions are needed.

Best regards,

Keith Douglas

FIELD WARNING NOTICE

Name / Owner / Operator: SPX
 Address: 4647 SW 40th Ave, Ocala, FL 34474
 Location / Source: Sandblasting and surface coating facility
 Permit Number: 0830084-009-A0 Permit Exp. Date: 02/02/13 Date and Time: 01/06/11

The purpose of this notice is to advise you of possible violations of law for which you may be responsible, and to seek your cooperation in resolving the matter. Florida Department of Environmental Protection (DEP) personnel conducted a field inspection on the date listed above at the location described above. Florida DEP personnel observed the following, which indicates that a violation of Florida Statutes and Rules may exist at the above described facility: *(For example, Where was the activity observed? How was it discovered? Who provided information to the inspector?)*

Observations: Currently permitted dust collector was replaced with a new unit without first obtaining a construction permit.

Rule or Statute Relevant to Observations

Permit Condition No.

	Unconfined Particulate Matter. Rule 62-296.320(4)(c)1, Florida Administrative Code (F.A.C.), provides that no person shall cause, let, permit, suffer or allow the emission of unconfined particulate matter from any activity, without taking reasonable precautions to prevent such emissions.	
	Operating Without a Permit. Rule 62-210.300, F.A.C., provides that, unless exempted from permitting or unless specifically authorized, the owner or operator of any facility or emissions unit which emits or can reasonably be expected to emit any air pollutant shall obtain an appropriate permit from the Department.	
✓	Violation of Permit Condition(s). Rule 62-4.160(1), F.A.C., The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "permit conditions" and are binding and enforceable pursuant to Sections 403.141, 403.727, or 403.859 through 403.861, F.S.	S
	Objectionable Odor. Rule 62-296.320(2), F.A.C., provides that no person shall cause, suffer, allow or permit the discharge of air pollutants which cause or contribute to an objectionable odor.	
	Excessive Visible Emissions. Rule 62-296.320(4)(b)1., F.A.C., provides that no person shall cause, let, permit, suffer or allow to be discharged into the atmosphere the emissions of air pollutants from any activity, the density of which is equal to or greater than 20 percent opacity.	
	Open Burning. With few exceptions, Rule 62-296.320(3), F.A.C., prohibits open burning in connection with industrial, commercial, or municipal operations.	
	Constructing Without a Permit. Rule 62-4.210, F.A.C., provides that no person shall construct any installation or facility which will reasonably be expected to be a source of air or water pollution without first applying for and receiving a construction permit from the Department.	
✓	Other. <u>Construction without permit (Rule 62-210.300(1)(a))</u>	

The activities observed during the Department's field inspection and any other activities at your facility that may be contributing to violations of the above-described statutes or rules should be ceased. The operation of a facility in violation of state statutes or rules may result in liability for damages and restoration, and the administrative imposition of penalties up to \$10,000.00 pursuant to Section 403.121, Florida Statutes (F.S.), or the judicial imposition of civil penalties up to \$10,000.00 per violation per day pursuant to Sections 403.141 and 403.161, F.S.

You are requested to contact _____ at the address or telephone number below within fifteen (15) days of receipt of this Field Warning Notice. Please be advised that this Field Warning Notice is part of an agency investigation, preliminary to agency action in accordance with Section 120.57(5), F.S. We look forward to your cooperation in completing the investigation and resolution of this matter.
