Subject: Re: Boiler daily records for Juice Bowl Products (ID No. 1050127)

Nedin:

Sorry for not getting back sooner. I've been under the weather with the flu for a few days and am catching back up now.

We have not located our copy of the letter from Louis Lorens yet. I do have our total consumption number from last year; see attached.

We also have our daily usage readings to send to you. it will take me a couple of days to format in the same document form, but will send straight away once completed. I would guess no later than Monday, March 5.

As per our records and billing our total natural gas purchases for 2011 was: 199,317,600 cubic ft.

Subject Boiler daily records for Juice Bowl Products (ID No. 1050127)

Good morning Don,

I haven't been able to find anything in our files that says that the daily records for your Hurst boiler are no longer required. Have you or your consultant been able to locate the letter?

Thanks,

Nedin Bahtic
