Re: Wheelabrator South Broward
2013 Compliance Stack Test and RATA Notification

Dear Mr. Lurix:

Wheelabrator South Broward has contracted Clean Air Engineering to conduct this facility's 2013 annual compliance stack tests and CEMS relative accuracy test audits from March 25th through March 27th, 2013. Testing will commence at approximately 0800 hours on each day, with a specific daily stack test schedule available at the stack test trailer located on site should changes from the protocol schedule be necessary.

Facility COMS data will be submitted in the stack test report in lieu of Method 9 determinations.

The protocol submitted in February 2012 will be used for the testing. The only change in the protocol is that dioxin testing will be conducted on Unit 2.

If there are any questions, please contact this office at (954) 581-6606.

Sincerely,

Scott McIlvaine
Plant Manager
