[Pinellas County Code, Subsection 58-128]

Reviewed records for the months of April 22 – January 20, 2012

Comments:

Facility appears to be in compliance. They had a change in Authorized Representative a few months ago: it is now James Burkholder instead of Katherine Chumley. They also changed the facility contact: it is now James Lewis instead of David Lavender. There is nothing in the file regarding these changes. Written notification of the changes was requested of James Burkholder via email on 1/23/12. Per Gary Robbins, the status of this facility is "in compliance" at this time.

The facility's records were complete and up-to-date. The grounds were clean; the facility is swept once a month and the loose material is swept back into the aggregate piles at the end of each day. Water is used as needed to suppress dust.

Exit Interview: I informed Jeff Seacrest the facility appeared to be in compliance at this time with the exception of the administrative changes. I told him I would contact James Burkholder to discuss the issue. I also informed Jeff of the permit expiration this year and that I would also remind James of it.
