- (2) Time table for the routine maintenance of the pollution control device as specified by the manufacturer;
- (3) Time table for routine periodic observations of the pollution control device sufficient to ensure proper operation;
- (4) A list of the type and quantity of the required spare parts for the pollution control device which are stored on the premises of the permit applicant;
- (5) A record log which will indicate, at a minimum:
 - a. When maintenance and observations were performed;
 - b. What maintenance and observations were performed; and
 - c. Who performed said maintenance and observations.
 - d. Acceptable parameter ranges for each operational check.

[Pinellas County Code, Subsection 58-128]

Comments: Reviewed records for the months of 1/2/08 to 8/13/09 indicated emission unit in compliance.

Exit Interview: During the closing conference, I told Mr. Gene Hi	icks this emission unit appears to be in compliance
---	---

at this time. I was not able to perform a visible emissions test at the time, as no tanker was on site, and not batching at the time of

the inspection. I asked Mr. Gene Hicks to contact AQ Division office next time they plan to load silo.
