

## CONCRETE BATCHING PLANT

## COMPLIANCE INSPECTION CHECKLIST

<b>INSPECTION TYPE:</b> ANNUAL (INST	INSPECTION TYPE: ANNUAL (INS1, INS2) ☐ COMPLAINT/DISCOVERY (CI) ☐			
RE-INSPECTION (FUI) ARMS COMPLAINT NO:				
FACILITY: Cemex Construction Materials Florida, LLC		DISTRICT:		
DBA/Site Name: Oldsmar RM Facility		Southwest		
<b>ADDRESS:</b> 501 Douglas Road		CONTACT PHONE:		
Oldsmar, FL		813-269-1240		
ARMS NO: PERMIT NO:		<b>Expiration Date:</b> 10/12/13		
1030037 001	1030037-006-AG	Renewal Date: 9/12/13		
		<b>Test Date:</b> 5/22/00		
EMISSION UNIT DESCRIPTION: Cement Silo with emissions controlled by a Besser Appco, Model DCS-260 baghouse				
INSPECTION DATE:	INSPECTION COMPLIANCE STATUS (c)	heck only one box)		
04/29/09	☐ In Compliance; ☐ Minor Non-Comp	liance; Significant Non-Compliance		
	PART I: General Review:			
1. Permit File Review		∑Yes ☐ No		
2. Introduction and Entry		⊠Yes □ No		
Comments: I was met on premises by Jason Jones and Jeff Toennies.				
3. Is the Authorized Representative still Jason Jones?   Comments:				
4. Is the facility contact still Jason Jones?  Comments:				
5. If the answer to 3 or 4 is "No", did the facility provide an administrative update within 30 days?  [62-210.310(2)(d), F.A.C.]				
PART II: <u>TESTING REQUIREMENTS</u> – Rule 62-296.414, F.A.C. (check appropriate box(es), if a shaded box is checked, this would indicate noncompliance)				
Compliance Demonstration  1. New Facilities / New Process Equipment— (permitted pursuant to Rule 62-296.414(4)(a), F.A.C., Air General Permits)  Did this facility demonstrate initial compliance no later than 30 days after beginning operation? Yes No				
2. \( \sum \) Existing Facilities – (permitted pursuant to Rule 62-296.414(4)(a), F.A.C., Air General Permits)  In order to demonstrate annual compliance, was an annual visible emissions test conducted on each dust collector exhaust point tested within 365 days (annually thereafter) of the previous visible emissions compliance test?\( \sum \) Yes \( \subseteq \) No				
Test Reports  3. Do the submitted visible emission tests demonstrate compliance with the 5 percent opacity limit?				
4. Was the department notified at least 15	days prior to the test? [62-297.310(4)(a)9. F.A	A.C.]		
5. Was the required test report filed with the department as soon as practical, but no later than 45 days after the test was completed? [62-297.310(8)(b)				
6. Was the facility visible emissions test(s) conducted according to EPA Method 9? [62-297.401(9)(c), F.A.C] Yes No				
7. During visible emissions tests of the silo dust collector exhaust points was the loading of the silo conducted at a rate that is representative of the normal silo loading rate, or at least at the minimum 25 tons per hour rate,				

PART II: <u>TESTING REQUIREMENTS</u> – Rule 62-296.414, F.A.C. (check appropriate box(es), if a shaded box is checked, this would indicate noncompliance)			
unless such rate is unachievable in practice? [62-296.414(3), F.A.C.]			
8. Are emissions from the weigh hopper (batcher) operation controlled by the silo dust collector? (If answer to this question is "Yes", then continue on to questions 8.a) and 8.b) below. If answer is "No" then skip to question 9			
a) Was the batching operation in operation during the visible emissions test? [62-296.414(3(c)), F.A.C.]			
9. If emissions from the weigh hopper (batcher) operation are controlled by a dust collector, which is separate from the silo dust collector, are the visible emissions tests of the weigh hopper (batcher) dust collector while batching at a rate that is representative of the normal batching rate and duration? [62-296.414(3)(d), F.A.C.]			
10. Was a visible emissions test(s) conducted by the inspector during this site visit according?			
PART III: OPERATING/RECORDKEEPING REQUIREMENTS – Rule 62-210.310(5)(b), F.A.C.			
(check appropriate box(es), if a shaded box is checked, this would indicate noncompliance)			
1. Is this facility: 1) a ⊠ stationary; 2) a ☐ relocatable; or does it have: 3) both, ☐ stationary and relocatable concrete batching and/or nonmetallic mineral processing plants? (Please check only one box.)			
2. For any combination of stationary or relocatable concrete batching plants, located with other concreted batching plants or nonmetallic mineral processing plants:			
a) Are there any additional nonexempt units located at this facility? [62-210.310(5)(b)4.a., F.A.C.]			
listed below: [62-210.310(5)(b)4.b., F.A.C.]			
<ul> <li>2) 23,000 gallons of gasoline – usage equals gallons</li> <li>3) 44 million standard cubic feet on natural gas – usage equals cubic feet</li> </ul>			
4) 1.3 million gallons of propane – usage equals gallons  5) or an equivalent prorated amount if multiple fuels are used onsite – usage equals % of all fuels			
3. Does the owner/operator of the concrete batching plant submitting this registration maintain records to			
account for site-wide fuel consumption for each calendar month and each consecutive twelve (12) months, and are these records, available for Department inspection, for a period of at least			
five (5) years? $[62-210.310(5)(b)4.d.$ , F.A.C.]  Polaration Notification (Pylo 61.210.310(5)(b)3 b. E.A.C.)			
Relocation Notification - (Rule 61-210.310(5)(b)3.b., F.A.C.)  1. Is the relocatable concrete batching plant used to mix cement and soil for onsite soil augmentation or			
stabilization?—( <b>if your answer is YES, please proceed to 1. a) thru 1.b) below)</b>			
at least one (1) business day prior to changing location?			
to the Department no later than five (5) business days following a relocation? Yes No			
If your answer to number 1. above is NO, proceed to 2. below  2. Did the owner or operator transmit a Facility Relocation Notification Form (DEP No. 62-210.900(6)) at			
least five (5) business days prior to relocation? Yes No			
PART IV: <u>Unconfined Emissions - 62-296.414(2)</u>			
(check appropriate box(es), if a shaded box is checked, this would indicate noncompliance)  1. Does the owner/operator of the concrete batching plant take reasonable precautions to control			
unconfined emissions			
a) management of roads, parking areas, stock piles, and yards, which shall include one or more of the following:			
1) Paving and maintenance of roads, parking areas, stock piles, and yards?			
amissions?			

PART IV: <u>Unconfined Emissions - 62-296.414(2)</u>			
(check appropriate box(es), if a shaded box is checked, this would indicate noncompliance)			
4) reduction of stock pile height, or installation of wind breaks to mitigate wind entrainment of			
particulate matter from stock piles?Yes 🔲 No			
b) use of spray bar, chute, or partial enclosure to mitigate emissions at the drop point to the truck? $\boxtimes$ Yes $\square$ No			
PART V: General Procedure Requirements and Conditions			
(check appropriate box(es), if a shaded box is checked, this would indicate noncompliance)			
Administrative Changes:			
1. Were there any change in the name, address, or phone number of the facility or authorized representative			
not associated with a change in ownership or with a physical relocation of the facility or any emissions			
units or operations comprising the facility; or any other similar minor administrative change at the facility 🔲 Yes 🔯 No			
2. If yes, did the facility provide written notification within 30 days of the change? [62-210.310(2)(d), F.A.C.]  \square Yes \square No			
<u>Permit Effective Period</u> – [62-210.310(3)(a), F.A.C.]			
1. Is the general permit for this facility still within the 5 year effective period? X Yes No			
2. Did the facility submit the new re-registration form at least 30 prior to permit expiration? Yes No			
New or Modified Process Equipment or Change in Ownership			
1. Since the last registration form submittal has there been [62-210.310 (2)(b)2]			
a) installation of any new process equipment? Yes 🛛 No			
b) alterations to existing process equipment without replacement?			
c) replacement of existing equipment substantially different than that noted on the most			
recent notification form? $\square$ Yes $\boxtimes$ No			
d) Change in ownership Yes No			
If the any of the answers to $1a(-1)d$ is $\underline{Yes}$ to any, a new registration form and appropriate fee should			
have been submitted 30 days prior to the change No			
<u>Noncompliance Notice:</u> - [62-210.310(3)(i), F.A.C.]			
1. Did the facility have any instances where they were unable comply with or will be unable to comply with any condition or			
limitation of the air general permit? Yes 🖂 No			
If the answer is $\underline{Yes}$ , proceed to a) and b).			
a) Did the owner or operator provide immediate notification to the Department? Yes No b) Did the notification include:			
1. A description of and cause of noncompliance? Yes No			
2. The period of noncompliance, including dates and times; or if not corrected, the anticipated time the noncompliance is expected to			
continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance? Yes No			

PART VI: Comments

O&M Plan
The pollution control equipment shall be operated and maintained in accordance to the operation and maintenance (O&M) plan. The O&M plan shall include, but is not limited to:  (1) Operating parameters of the pollution control device; (2) Time table for the routine maintenance of the pollution control device as specified by the manufacturer; (3) Time table for routine periodic observations of the pollution control device sufficient to ensure proper operation; (4) A list of the type and quantity of the required spare parts for the pollution control device which are stored on the premises of the permit applicant; (5) A record log which will indicate, at a minimum:  a. When maintenance and observations were performed; b. What maintenance and observations were performed; and c. Who performed said maintenance and observations. d. Acceptable parameter ranges for each operational check. [Pinellas County Code, Subsection 58-128]
Reviewed records for the months of11/07 through 04/09
Comments: This facility is currently in long term shut down. My initial inspection was on 04/16/09, I arrived on site to find the plant's gate closed and padlocked. A couple of telephone calls put me in touch with Jason Jones, he explained the plant's current condition and we set up an appointment to inspect the facility today, 04/29/09.
The plant experienced closures during the months from 12/07 through 05/08, reopened for the months of 06/08 through 10/08 and shut down again in the 11 <sup>th</sup> month of '08. The facility has been swept, the aggregate piles pushed up into their separate bins and the rest of the yard left in a neat clean manner. While the cement silo still contains powder there is no current plan to use it, or the aggregate that is on site. Jason Jones stated the economy is too slow at this time to operate this plant but that Cemex does not have plans to rescind the permit. Mr. Jones went on to say that he would treat the plant as a new facility if and when they reopen and fill the silos. Mr. Jones explained further that a VE would be performed within 30 days of the new start up.
Exit Interview: During my inspection of the O & M plan for the E.U.s on site I found that a couple of the monthly documents had not been signed. All of the other necessary information for these O & M forms had been completed. I pointed this out to Jason Jones and noted that this was an important part of the documentation process. Mr. Jones indicated his understanding and assured me his employee training would cover this point.

	_ 04/10
Inspector's Signature	<b>Approximate Date of Next Inspection</b>
