 - d. Acceptable parameter ranges for each operational check.

[Pinellas County Code, Subsection 58-128]

Comments: Reviewed records for the months of 8/15/12 through 7/22/13, the records were in compliance. See attached copies of the operation and maintenance checklist record. I was not able to perform a visible emissions test at the time, as no tankers were on site, and not batching at the time of inspection. I asked Mr. Watson to contact AQ Division office next time they plan to load silo.

Exit Interview: During the closing conference, I told Mr. Watson this emission unit appears to be in non-compliance. I told him City of Clearwater failed to meet the rule requirements of 62-210.300(4)(d), F.A.C which states any a change in the name of the authorized representatives shall notify the Department within 30 days of any changes. I gave Mr. Barry verbal warning and I told him the City of Clearwater required to send a notification Letter to our office or Florida Department of Environment Department office. He promised to send our office and DEP office a notification Letter ASAP.
