COMMENTS: Department personnel conducted an unannounced annual air program compliance inspection of Odom Fiberglass located in Santa Rosa County on July 20, 2011. The facility was not in operation at the time of the inspection. The property was surrounded by a fence and the gate was locked. No one was on site. I contacted a facility representative and it was confirmed that they have not been in operation since 2009. There are no plans to operate again in the near future.
