**COMMENTS:** On February 29, 2012, Department personnel conducted an unannounced annual air program compliance inspection of Ready Mix USA in Villa Tasso. The Department would like to thank Mr. Jay Spooner for his assistance during the inspection.

According to facility personnel, the yard is watered weekly as needed. Emissions were noted from the truck loading area during operation. According to facility personnel the spray bar may need maintenance or the load rate may need to be decreased. The load rate was decreased prior to loading a second truck and fewer emissions were noted. Please maintain the plant operations to ensure that there are no excess emissions.
