COMMENTS: The facility appeared to be closed and was not in operation. The gates were locked. Operations appeared to still be suspended. I observed the equipment from the side of the road, but I did not note any changes or new additions to the equipment.

The last compliance test review was on 6/20/2006. The facility still appears to be in "Long-Term Reserve Shutdown Dt."

Note: The inspection checklist could not be completed due to insufficient information or lack of facility access or operation. The facility will be inspected more thoroughly once it has resumed operation.

Recommendations:

When the facility resumes operation, please contact the District Office Air Program at 850/ 595-8300.
