COMMENTS: On June 08, 2011 I visited this facility to conduct the annual compliance inspection and to attend the VE tests. Francis Morlu, South Florida Environmental Services, conducted the VE tests. VE tests were conducted on silo 1, plant 3 and silo 1, plant 4. Other two silos were full. No visible emissions were observed and no objectionable odor was detected. This facility produces approximately 6000 yards of concrete a month.
