COMMENTS: On December 21, 2011 I visited this facility to conduct the compliance inspection. On site I met Ricky Alvarez, the manager of the facility. According to Mr.Alvarez, South Florida Environmental Services conducted the visible emissions test on December 09, 2011. This facility produces approximately 1500 yards of concrete per month. I did not observe any fugutive particulate around the facility. All the water sprayers were on during the time of my inspection.
