**COMMENTS:** On december 27, 2013 I visited this facility to conduct the annual compliance inspection. On site I met Deyanirhah Montalvan, the Plant Manager of the facility. A VE test was conducted on October 15, 2013 by South Florida Environmental Services on a dust collector and two silos. Facility produces approximately 700 yards of concrete per day. No visible emissions were observed during the time of my inspection.
