COMMENTS: On January 26, 2012, a visible emission test, records review, and inspection were conducted by Michelle Robinson at Tarmac America's Ready Mix Concrete plant in Stuart, FL. The facility's authorized Representative Abigail Diaz hosted the inspection and conducted the VE testing for the site. Ms. Diaz was asked to provide an administrative update to Tallahassee listing herself as the new authorized representative. An administrative update was also requested to address the change in street name from Monterey Rd. Ext. to Grunman Blvd. At the time of the inspection, no visible emissions were observed. The facility was well maintained. Monthly fuel records were available for review. The facility uses approximately 1,500 gallons of low sulfur diesel fuel a month.
