COMMENTS: The inspector, Tom Bessa, met with Ryan Peterson, consultant for Arlington Environmental Services, and Ron "Doc" Locke, Plant Manager, on 7/23/08. The cement silo is split with two dust collectors on top. The observed opacity for both dust collectors was zero percent. The loading rates were greater than 25 tph. The flyash silo also had an observed opacity of zero percent. The loading rate was greater than 25 tph. The dust collector for the ready-mix trucks was also tested. The observed opacity was zero percent. There were no objectionable odors detected. No unconfined or uncontrolled emissions were observed.
