PART II: TESTING/RECORDKEEPING REQUIREMENTS – Rule 62-296.414, F.A.C. – (continued)		
(check \square appropriate box(es)		
Compliance Demonstration (Dula 62 206 A01/E)(1) E A C)		
Compliance Demonstration - (Rule 62-296.401(5)(i), F.A.C.)		
1. Is each dust collector exhaust point tested according to the visible emissions limiting standard as part of the		
annual compliance demonstration? (Rule 62-297.310(7)(a), F.A.C.)		
N. T. With () In J. C. 210 200(1) F. C. Ali G. Ali G. Ali G.		
New Facilities – (permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits)		
2. Did this facility demonstrate:		
a) initial compliance no later than 30 days after beginning operation? Yes No		
b) annual compliance within 60 days prior to each anniversary of the air general permit notification form		
submittal date?		
Existing Facilities – (permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits)		
3. In order to demonstrate annual compliance, was an annual visible emissions test conducted 60days prior to		
the AGP Notification form submission, and within 60 days prior to each anniversary date?		
Test Reports – (Rules 62-213.440, F.A.C. and 62-297.310(8)(b), F.A.C.)		
4. Was the required test report filed with the department as soon as practical, but no later than 45 days after the		
test was completed? Yes \subsetem No		
test was completed.		
PART III: OPERATING/RECORDKEEPING REQUIREMENTS – Rule 62-210.300(4)(c)2., F.A.C.		
PART III: OPERATING/RECORDKEEPING REQUIREMENTS – Rule 62-210.300(4)(c)2., F.A.C. (check ☑ appropriate box(es))		
 (check propriate box(es)) 1. Is this facility: 1) a stationary ; 2) a relocatable ; or does it have: 3) both, stationary and relocatable

PART III: OPERATING/RECORDKEEPING REQUIREMENTS - Rule 62-296.414(2)(a) and (b), F.A.C. (continued)		
(check ☑ appropriate box(es))		
Unconfined Emissions – (Rule 62-296.320(4)(c), F.A.C.) 1. Does the owner /operator of the concrete batching plant take reasonable precautions to control unconfined emissions by: a) management of roads, parking areas, stock piles, and yards, which shall include one or more of the following: 1) paving and maintenance of roads, parking areas, stock piles, and yards?		
PART IV: SPECIAL CONDITIONS AND PROCEDURES – Rule 62-210.300(4)(d)4., F.A.C. A. New or Modified Process Equipment		
1. Since the last inspection has there been a) installation of any new process equipment?		
notification form and appropriate fee (Rule 62-4.050, FAC) to the appropriate DEP or local program office?

Barbara Nevins	09/2007
Inspector's Signature	Approximate Date of Next Inspection

COMMENTS:

This was an annual inspection. Visible emission tests performed by Daniel Beatty were observed.

The cement silo VE test proceeded without problem. Zero emissions were observed for the 54 minute duration of the test.

The VE test of the flyash silo was interrupted while a temporary repair was made to the pop-off structure. Prior to repair, emissions of approximately 5% were observed. After the repair no emissions were observed. The entire test was less than 30 minutes. Mr. Beatty said that he will schedule another test of this silo when the tests are done after installation of new equipment on the cement silo baghouse and the batch unit.

A file review revealed that a GP was issued 11-22-06 for upgrading equipment. This GP schedules annual compliance testing between Sept 14 and Nov 14, with initial testing within 30 days after beginning operations of new equipment.

After new equipment installed

Vehicular activity on site was raising clouds of dust. This interfered somewhat with the stack VE tests. From outside the yard fencing, I did not observe fugitive emissions. While a compliant rating was given for this inspection, it is recommended that a particulate (dust) retardant be used, as needed, on site to prevent fugitive emissions that may result in non-compliance with Department Rules.
