PART I: INSPECTION COMPLIANCE STATUS (check 🗹 only one box)

☐ IN COMPLIANCE ☐ MINOR Non-COMPLIANCE ☐ SIGNIFICANT Non-COMPLIANCE

PA	ART II: <u>ONSITE INTRODUCTORY MEETING</u>	(check 🗹	2
1.	Name(s) of facility representative(s): Sigurd Bo	box for each	question)
	Brief Notes:		
2.	Is the Authorized Representative still SIGURD BO?	Xes Yes	□No
3.	If different, did the facility provide an administrative update within 30 days? Is the facility contact still SIGURD BO? If no, who is?:	☐ Yes ⊠ Yes	□No □No
4.	Will facility be conducting VE test(s) during today's inspection?		□No □No

In:+ C ...

<u>1-CCB Plant-R-Mix,split silo,comp #1(cement)w/silotop baghouse subject to 5% Opa</u>	ocity Limit	
PART I: <u>FILE REVIEW PRIOR TO INSPECTION</u>	(check 🗹	only one
1. Date of last inspection: <u>3/23/2011</u>	box for each	question)
2. Past Visible Emissions (VE) tests:		
a. Was a VE test performed within each of the past 4 calendar years?	Xes Yes	No No
b. Has a VE test been performed yet within the current calendar year?	Yes	No No
c. If first year of operation, was a VE test performed within 30 days of commencing		
operation? 🖾 N/A	Yes	🗌 No
d. Date of last VE test: $3/23/2011$		
e. Was the VE test report filed with the compliance authority no later than 45 days after the test?	Yes	No No
f. Did the report state the actual silo loading rate during emissions testing?	Yes Yes	∐ No
g. What was the actual silo loading rate? <u>35.61</u> tons/hour		
h. If weigh hopper(batcher) emissions controlled by the silo dust collector, did the report state ∇Z N/A		
whether or not batching occurred during emissions testing? N/A	Yes	∐ No ⊠ No
i. Did the test report state the actual batching rate during emissions testing?	Yes	🛛 No
j. What was the actual batching rate? tons/hour k. Did the emissions unit demonstrate compliance with the 5% opacity limit during the last VE test?	X Yes	□ No
If not, what was the problem (if known)?		
PART II: <u>STACK EMISSIONS</u> from a silo, weigh hopper(batcher) or other	(check 🗹	only one

Facility Section (continued)

CONFIRMATION OF GENERAL PERMIT ELIGIBILITY	(check 🗹	only one
	box for each	
 Does this facility keep records to show that it does not have the potential to emit: a. 10 tons per year or more of any hazardous air pollutant? b. 25 tons per year or more of any combination of hazardous air pollutants? c. 100 tons per year or more of any other regulated air pollutant? 	- 🛛 Yes - 🖾 Yes	□ No □ No □ No
 Does this facility include: a. Any emission units or activities not covered by the applicable air general permit (with the exception units and activities that are exempt from permitting pursuant to subsection Rule 62-210.300(3) or Rule 62-4.040, F.A.C.)? If YES, what non-exempt units or activities? 		🔀 No
 b. Any emissions units or activities authorized by another air general permit where such other air general permit and this general permit specifically allow the use of one another at the same facility? If YES, what other general permit units or activities? 		🛛 No
 3. Is the total combined annual facility-wide fuel usage of all plants less than or equal to: a. 275,000 gallons of diesel fuel? b. 23,000 gallons of gasoline? c. 44 million standard cubic feet on natural gas? d. 1.3 million gallons of propane? e. Or an equivalent prorated amount if multiple fuels are used onsite (use equation below)? 	🛛 Yes 🖾 Yes 🕅 Yes	□ No □ No □ No □ No □ No
gal diesel/yrgal gasoline/yrMM SCF nat. gas/yrMM gal prop275,000 gal diesel/yr23,000 gal gasoline/yr44 MM SCF nat. gas/yr1.3 MM gal propa		0?
4. Has the owner/operator maintained, available for inspection, site-wide records of monthly fuel consume for each consecutive 12-period for the past 5 years?		🗌 No

GENERAL CONDITIONS	(check 🗹 box for each	•
1. Has the owner or operator allowed the circumvention of any air pollution control device, or allowed the emission of air pollutants without the proper operation of all applicable air pollution control devices?	🗌 Yes	🖂 No
 Does the owner or operator: a. Maintain the authorized facility in good condition? 		
b. Ensure that the facility maintains its eligibility to use the air general permit and complies with all terms and conditions of the air general permit?3. Has the owner or operator allowed you, as the duly authorized representative of the Department, acces		🗌 No
to the facility at reasonable times to inspect and test and to determine compliance with the air general permit and Department rules?		🗌 No

RELOCATABLE PLANT:	(check ☑ box for each	•
1. Is the facility: stationary \square ; relocatable \square ; or consisting of both stationary and relocatable \square concrete batching and/or nonmetallic mineral processing plants? (<i>If only stationary, skip the following</i>)		. ,
 Is the relocatable concrete batching plant used to mix cement and soil for onsite soil augmentation or stabilization?	🗌 Yes	🗌 No
 a. Did the owner or operator notify the appropriate Department or Local Air Program by telephone, e-mail, fax, or written communication at least one business day prior to changing location? b. Did the owner or operator transmit a Facility Relocation Notification Form [DEP No. 62-210.900] 	(6)]	□ No
to the Department or Local Air Program no later than five business days following a relocation? c. Did the owner or operator transmit a Facility Relocation Notification Form [DEP No. 62-210.900(to the appropriate Department or Local Air Program at least five business days prior to relocation?	6)]	∐ No □ No
3. If the relocatable plant was co-located at a facility with a separate air construction or air operation pe and the relocatable batch plant is not included as an emissions unit in that separate permit: a. Was the relocatable batch plant being used for a non-routine purpose (i.e, there is no repeated usag If YES, what was the purpose? 		🛛 No
b. Were records kept by the owner/operator to indicate how long it was co-located at the permitted facility? If YES, were any periods more than 6 months in duration?	🗌 Yes 🗌 Yes	⊠ No ⊠ No
CHANGES	(check 🗹	only one
A desinistrative Changes	box for each	•
 <u>Administrative Changes</u>: Were there any changes in the name, address, or phone number of the facility or authorized represent associated with a change in ownership or with a physical relocation of the facility or any emissions u 		
operations comprising the facility; or any other similar minor administrative change at the facility? 2. If YES, did the facility provide written notification within 30 days of the change?		⊠ No □ No
 Since the last registration form submittal has there been a. Installation of any new process equipment?	🗌 Yes 🗌 Yes	⊠ No ⊠ No ⊠ No ⊠ No
 If the answer to any question 3a. – d. is YES, was a new registration form and the appropriate fee su 30 days prior to the change? 	bmitted 🗌 Yes	🗌 No

Bill Rhodes

Approximate Date of Next Inspection

COMMENTS: Bill Rhodes, with OCEPD, arrived at the facility at approximately 11:00 AM, and was met by Mr. Sigurd Bo, Environmental Manager, with Cemex Construction Materials. The consultant, Mr. Bill Arlington, with Arlington Environmental Services, was arriving late from another facility, and Mr. Bo requested if it was acceptable for him to begin the VEs so the trucks would not be delayed. Since Sigurd Bo is a certified Visible Emission Evaluator, permission was granted by OCEPD personnel, and the test was begun at approximately 11:10 AM (EU-002). A 30-minute VE was audited and the observed opacity was 0%. Mr. Bill Arlington arrived at approximately 11:45 AM, and VEs were started on EU-001, EU-003, and EU-006. 30-minute VEs were audited and the observed opacities were 0%. All loading rates were acceptable. Emission units EU-004 (A letter was received at OCEPD in 2008 from Mr. Sigurd, noting that the silo, as well as the baghouse, would be replaced). At the present time, the tank has not been replaced and is out of service, as per Mr. Bo). EU-005 (no VE required), EU-007, and EU-008 (located in the block plant which has been down since approximately the first week of January 2012, as per Bo Sigurd) were not tested. Mr. Bo noted that he would draft a letter to OCEPD, requesting that EU-004 (silo), as well as EUs 7 & 8 (Block Plant), be placed in long-term reserve for an undetermined amount of time. No PM was observed leaving the property.
