COMMENTS:

The total quantity of VOCs used by the facility on a monthly basis is well below the permitted limit of 44 lbs/day.

The usage logs were available upon request by the spray booth operator.

Two days of spraying were reported since the last inspection.

The spray booth filters were clean and there were no signs of overspray on-site.

There were no objectionable odors at the time of the site visit and no complaints have been received in the past year re: odors caused by the facility.

Satisfactory annual compliance inspection performed on 3.12.09.
