Dear Valued Customer

I would like to take this opportunity to thank you for your commitment to preserving our environment and allowing MCF Systems the privilege of providing your waste management services. Our support staff is available every day to insure that your requirements for waste management are addressed in a safe and timely manner. We maintain the highest level of compliance, quality and safety when transporting your materials.

The entire waste management and transportation industry is experiencing dramatic increases in disposal, energy and other inflation driven costs resulting in higher operating expenses in every facet of the business. As an example Fedx and Ups just announced price increases of 4.9 to 6.5%. We believe operating costs will continue increase well into the foreseeable future. In order to continue our high level of service and to meet your expectations as a full-service environmental waste transporter, MCF Systems finds it necessary to implement a 5 % price increase effective January, 2008.

The safety of our environment, our customers and employees is of the utmost importance at all times, so we always choose to operate at the highest standards. We will continue to work hard at maintaining reasonable and stable prices for our transportation and environmental services. Again, I thank you for the privilege of having you as our customer and wish you a prosperous 2008.

Sincerely,

Robert F. Losurdo  
President, COO
