**COMMENTS:** The inspector, Assefa Hailemariam, met with Ms.Abby Diaz, Environmental Engineer from Tarmac America at Orlando Block Plant on 12/3/2012 to audit the compliance test being conducted on the soils and mixers. All of the points observed opacity of 0.0%. The 25 TPH loading rate for EU001 and EU002 was not achievable in practice due to the material being loaded. EU003 loading rate was acceptable. The EU004 and EU005 loading rate are not silos. They are mixers/ batchers are not subject to 25 TPH loading rate. Facility uses water a truck to wet the dirt roads. No PM was observed leaving the property. No objectionable odors were detected during the compliance test. The Plant Manager, Mr.Steve Malloch and facility workers were also present during the VE test.
