COMMENTS:

- This facility was inspected as annual compliance determination. I was also checking on the status of the permit notification status. The facility permit expiration is 7/5/2006. I met with the facility contact, and co owner Brian Costello. The responsible official, Anthony Sleeper was not on site, as this time due to illness.
- I asked Mr. Costello if he had a copy of the notification Mr. Sleeper was supposed to have sent in to renew the permit. He stated he did not, but had a copy of the \$50.00 check, which was for the payment. This is the annual fee; there is not a notification fee.
- Mr. Costello showed me the copy of the blank notification form; he had received from DEP for the renewal.
- I asked him if he was signed as the co owner on the notification form. He stated that Mr. Sleeper had informed him they had put him as co owner on the notification which was said to have been sent to DEP. He did not remember signing the notification form sent out by Mr. Sleeper. I asked him to recheck that Mr. Sleeper had sent the notification to DEP.
- I reviewed the calendar records, which were up to date, most recent recording June 16, 2006. The perchloroethylene usage was 13.8 gallons. The last purchase was for Perc was January 2006. Mr. Costello stated he has not used much Perc, he stated the equipment typically only operated in the mornings for one hour. The temperature ranges were from 38 – 40°F. Mr. Costello stated the A & E service check, calibrate and repair his equipment. He showed service invoices.
- The dry cleaning equipment was not in operation at this time. There were no Perchloroethylene odors detected during the inspection of the facility. I observed the Hazardous waste containers were stored in the northwest corner of the shop. They were in a secondary containment area. (See photo)
- The annual certification will be signed by Anthony Sleeper and mailed to the AQ office, as he is still listed as the primary responsible official.
- The permit was due to have been submitted by 6/5/2006 (30 days prior to expiration). The notification does not appear to have been received at this time by Mobile Source Control.
- Mr. Costello mailed a second notification on 6/28/2006. Enforcement may be ensued only if permit expires before the second notification form is received by BMM.
