**COMMENTS:** An unannounced compliance inspection was conducted on January 29, 2008, of the Vick's Cleaners located at 2915 Navy Blvd. During the inspection, a review of the facility's records relating to the operation and maintenance of the five perchloroethylene dry cleaning machines was conducted; as well as a site walk through. Excellent operation and maintenance records are being maintained. All required documentation of perchloroethylene purchased, weekly leak inspections, hazardous waste removal and maintenance activities were up to date and available for review. Secondary containment is provided for all units of the dry cleaning machines and perchloroethylene related containers. Hazardous wastes drums are properly labeled and tightly sealed. Areas around perchloroethylene machines were clean and well maintained.
