COMMENTS: Ms. Wendy Akins and I (Chris Haines) arrived at the facility in order to perform a regular inspection for training purposes at approximately 9:30AM. Upon entering the facility we asked to see the owner Mr. Michael Ingalls. Mr. Ingalls provided us with his record book and allowed us to inspect his machine. At the time, Mr. Ingalls' machine was in the process of cleaning the perc. He also showed us that his Halogenated detector was operating and could in fact detect perc. After inspecting the dry-to-dry machine we inspected his records. I recorded his perc usage for the current 12 month rolling total. His perc purchase receipts were kept in the back of the book along with the MSDS sheets and malfunction plan. Before leaving, we also notified Mr. Ingalls that his Air General Permit was set to expire on 07/13/12. We thanked Mr. Ingalls for his time and cooperation, and concluded our inspection at approximately 10:00AM. NOTE: Any unchecked boxes do not apply.
