**COMMENTS:**

1. I, Allen Rainey, met with Mr. Brad Neill. I requested and received temperature charts from August 2009 to the present and spot- checked them. I made copies of selected charts at the facility.
2. A repairman was present making repairs to the crematory refractory floor. Mr. Neill said heavy wear of the refractory floor was discovered about a week ago and that the unit had not been used since. The batch cremation log showed that last cremation was on 1/21/10. A batch was loaded into the crematory while I was reviewing the temperature charts as a test for the repair.
