COMMENTS: 1) Facility does not have a log of dates of when dry cleaning system components were inspected for leaks and could not provide documentation of leak detections being conducted. Facility does not utilize a halogen leak detector (HDL) to detect leaks despite having one available for use. The owner was instructed that the HDL must be used, according to manufacturer's instructions, to detect leaks. 2) Perc purchase receipts and manifests were not available for review at time of the inspection. Mr. Kim was instructed to submit perc purchase receipts and manifest to the Department within 14 day of the inspection. Facility failed to submit the requested information. 3) Hazardous waste storage containers are not kept in secondary containment.
