COMMENTS: On December 21, 2011 I visited this facility to conduct the compliance inspection. Carlos Garcia, Gate Security with Allied Burton, escorted me to the facility. Well number one a was equipped with emergency generators. There are fourteen other wells - well number two through well number fifteen. The emergency generators were not operational during the time of my inspection. The units are tested once per month. On site I met Doug, Pace Analytical, who was collecting water samples.
