COMMENTS: I met with Mr. Rakesh Patel on 1/19/2012 and the facility was in operation at the time of inspection. Mr. Patel utilizes this one location to dryclean garments from his two locations. The perc machine at this location is approximately around 5 years old and it operates/runs very efficiently according to Mr. Patel. Mr. Patel has his running total of perc purchased on the wall beside his perc machine and was up to date at the time of review/inspection. The facility is in compliance and meets the permit requirements at the time of inspection.
