**COMMENTS:** At the time of the Inspection Mr. Gergory Menyhart, President, accompanied Mr. Young on a walkthrough inspection of the site and provided the records for review. The facility is well maintained and Mr. Menyhart stated that there was a small leak in the bed scubber that was discovered during a January 25th maintenance inspection. The company has identified the problem and plan on having the problem fixed by February 17th, 2012. The equipment will not be used until the repairs have been made. The facility was found to be In-Compliance with there current Air permit at the time of the inspection.
