COMMENTS: 4/1/11 - An inspection was performed at the facility by AQD. During the inspection it was revealed the facility did not have its records on-site during the inspection. The facility owner, Doyle McCourt, had the records in his truck. Therefore, it could not be determined if the facility met its requirements as a New, Smaill Perchloorethylene Dry Cleaner source. The facility began operation on 2/3/11 (see FDEP Drycleaning Facility Registration Certificate)

Air Quality allowed the facility to send its records in by the COB of April 4, 2011 without issue of an NOV. The facility was advised (verbal warning) that failure have records on-site again will result in another violation.[jm]
