COMMENTS: I met with Eddie Randolph. I looked inside the facility at the usual machine location. The PERC drycleaning machine had been removed. Mr. Randolph confirmed that he no longer uses a Perc machine at the site. I recommended that he turn over his permit to the Division office and I gave him SBEAP contact information . He indicated he would attempt to call the number later that day.							

I sent an e-mail to the NW District office that informed them that the facility is basically inactive.

Note: The inspection checklist was not completed due to insufficient information.
