COMMENTS: Spoke with Mr. Rodriguez gave him coopy of a blank inspection report and rule/registration form. Went over 5 years of calendars and receipts. Showed Mr. Rodriguez the expiration date on the inspection report and explained that his permit expires September 23, 2012. I explained to Mr. Rodriguez the registration form needs to be in Tallahassee at least 30 days prior to September 23, 2012. After inspecting facility with the inspection checklist facility seems to be in compliance. I explained to Mr. Rodriguez that he is getting close to using more than 140 gallons of perc. He may want to resubmit his registration form to reclassify as a new large area source.
