**COMMENTS:** 10/24/06 I did a walkthrough the facility. No records available. New owners. 10/26/06 I went back to this facility to deliver a Dry Cleaners Calendar and to show them how to start recording the temperature and leak detection logs and repair reports, as well the running total for perc purchases. Neither the owner or his wife were present, only the employees who were very busy with customers. I left one calendar with Zulma Ortiz (employee) and asked her to give it to the owner so that they can start using it and have their records ready for the next Inspection. I asked her to let them know that another Inspection will take place in one month.
