Dear Mr. Yun:

On November 4, 2009, a Department representative with the Air Resource Management Program inspected your facility, ID 0910080. A copy of the inspection report is enclosed. The inspection and a review of Department records indicate the facility was in compliance at the time of the inspection for those items specifically noted in the inspection report.

As noted in the inspection report comments, enclosed, quantities of Perchloroethylene (perc) purchased were noted on the 2009 Dry Cleaner Compliance Calendar but the 12-Month Rolling Totals did not equal the amount of perc purchased for the past 12 months. To help correct this discrepancy, it was agreed that the total amount of perc purchased in 2008, as confirmed by actual perc purchase receipts, should be used as the starting point for the 12- Month Rolling Total for the 2009 Dry Cleaner Compliance Calendar. Please make the appropriate pen and ink changes for each 12-Month Rolling Total noted on the 2009 Calendar.

This letter applies only to activities covered by the Air Resource Management Program. If you have any questions, please contact Carol Melton at 850/595-8300, extension 1228 or carol.melton@dep.state.fl.us.

Sincerely,

COMMENTS:

The 12-Month rolling totals recorded on the 2008 Dry Cleaner Compliance Calendar were incorrect. During a previous Department inspection, performed on November 13, 2008, it was noted that receipts for 120 gallons of perc purchased were recorded on the 2008 Calendar; however, during the November 4, 2009 inspection, it was noted that the rolling total on the 2008 Calendar indicated that greater than 200 gallons of perc was purchased.

Also, during the November 4, 2009 inspection, it was noted that on the 2009 Calendar, quantities of perc purchased for each month were included, but the 12-Month Rolling Total was 215 gallons and actual receipts only totaled 135 gallons purchased.

These apparent discrepancies were discussed with Mr. Yun and his daughter. Mr. Yun's daughter indicated she had accounting experience and would review the rolling totals to correct them. We agreed that the total quantity of perc purchased in 2008, as determined by purchase receipts should be used as the December 2008 12-Month Running Total and recorded at the start of the 2009 Compliance Calendar. Mr. Yun signed an annual compliance certification form and checked that his facility has remained in compliance since his last inspection.
