**COMMENTS:** On January 14, 2010 I visited this facility accompanied by Mr. Jeremy Vincent, Environmental Specialist, FDEP to conduct a joint compliance inspection. On Site we met Maribel Salazer, the assistant manager of the facility. We also spoke to Maria Matas, the manager of the facility over the phone. According to Mrs.Matas, this facility operates as a wet cleaning service. No perc was purchased in 2009. However, no leaks were detected in the dry cleaning machine. And Halogen leak detector was available. Yearly Calender for 2009 was properly filled out.
