• I reviewed the 2006 – 2007 calendar records, purchase invoice	s and waste manifests for the dry-to-dry machine. Mr. Zeiro

- I reviewed the 2006 2007 calendar records, purchase invoices and waste manifests for the dry-to-dry machine. Mr. Zeiro stated that due to the slowness of business, the dry-to-dry machine is only used occasional. He performs his leak checks weekly when the machine is operated. (See photo) He marked the calendar, as NR when the unit is not in operation. Mr. Zeiro stated he has been sending his clothes out to Scott's Cleaners in Indian Rocks Beach. He stated he only operates occasionally on Saturday's when the Scott's Cleaners is not open, or a customer has a special item needing dry cleaning. There had been no Perc purchases or waste disposal for 2007, due to minimum use of the dry to dry equipment.
- The temperatures recorded for previous months ranged from 34°F to 38°F.
- We toured the facility and observed the dryer, which was not in operation. There were boxes and various items stacked around it. I did not detect any perchloroethylene odors during inspection of dryer.
- The Hazardous waste drums were stored on a yellow secondary containment receptacle, to the side of the dryer. The dry-to-dry machine separator water was directed into a covered container, but was dry since machine has not been in operation. Mr. Zeiro stated it is disposed as wastewater. We observed the Perc reservoir it appeared to contain ~ 19 gallons of Perc (See Photo)
- I advised the facility contact Abdelahad Zeiro, of the new EPA rule, which requires facilities' to obtain a halogen detector. I showed him mine. He stated he would look into
- The facility responsible Mr. Abdelahad Zeiro signed the annual certification form.
- $\bullet$  I gave him the dry cleaning booklet for P2R2 waste treatment and P2 phamplet regarding dry -to dry equipment maintenance information. I gave him a copy of the rule regarding the Halogen detector, and the FDEP waste water treatment memo.
- This facility appears to be in compliance at this time, as operating mainly as a drop store.
