COMMENTS: In a compliance inspection conducted on 2/25/2011, AQD staff (E.Susky) observed operations at Regal Cleaners The facility has one PERC dry-cleaning machine. A worker on-site accompanied AQD staff on the inspection. The FDEP dry-cleaning calendar was not completely filled out. One drum of hazardous waste did not have an accumulation start date on the label. Staff did not have the PERC leak detector available. The PERC receipts and waste manifests were available.
