Inspector's Signature	Approximate Date of Next Inspection		

COMMENTS: In a compliance inspection conducted on 2/28/2013, AQD staff (E. Susky) observed operations at Marina Mile Yachting Center. The facility is a marina that does bottom work on boats. They have dockage, offices and a pull out that transfers the vessels to a dry dock where work can be conducted. Mr. David Hole (manager) accompanied staff on the inspection. AQD staff did observe workers sanding a part in the open area and brought it to Mr. Hole's attention. He informed the workers that they needed to contain all emissions. Voc records were faxed to the department and the facility is below their threshold.
